

SALMON BROOK VETERINARY HOSPITAL

2018 Equine Wellness Program

Now that the holidays have passed, you may be thinking about resolutions and adopting a healthier lifestyle. But what about your horse?

For a limited time, Salmon Brook Veterinary Hospital is offering our clients the option to purchase services in our new **WELLNESS PROGRAM** at a discounted rate. Signing up for these programs takes the stress out of managing your horse's routine care and is a cost-effective way to ensure biannual exams *and more!*

BASIC - The basic plan is designed for our pleasure horses requiring the essential vaccines and routine care. ANY horse can enroll and we can customize your horses care with additional services and vaccines.

GERIATRIC - This plan includes additional bloodwork to ensure early detection of disease in our aging patients. An ACTH screens for Cushings disease, while routine bloodwork can identify early kidney and liver disease, as well as early infections and underlying anemia.

	Basic		Geriatric <16 yrs old	
	Spring	Fall	Spring	Fall
Rabies	✓		✓	
EWT/WNV	✓		✓	
Spring Wellness Exam	✓		✓

Package Value	\$459		\$660	
Discount	10%		15%	
Discounted Package Price	\$412		\$561	
Savings	\$47		\$99	

An additional **10%** discount will be included on all additional vaccines and services provided the day of your exam.

Signing up is easy!

- 1) Read the Terms and Conditions on the following page.
- 2) Fill out the bottom portion, indicate form of payment and send or fax to the office!

Sign-up ends March 1st, 2018!

Why is a wellness program so important?

Prevention and early detection are the key to the long healthy lives of our equine patients. **Biannual exams** by our knowledgeable, up-to-date veterinarians will include general physical exams, oral exams and evaluating body condition score.

Oral exams and dental floating provided by a licensed, trained veterinarian are essential to maintaining good quality dental health. Veterinarians are the only people trained to evaluate the oral cavity, head and neck, and accurately diagnose and treat medical conditions. Gentle sedation provided by a veterinarian minimizes anxiety and allows a thorough, complete oral exam.

You can rest assured the vaccines administered are stored and handled properly. Veterinarians are well-equipped to discuss any prior medical issues, supplements, medications and other issues that may interact with specific vaccines. In the event your horse has a reaction, we are available to discuss and evaluate your animal! Furthermore, vaccines administered by a veterinarian come with a manufacturer's guarantee and funding should an unexpected event occur and requires treatment.

Finally, in our geriatric patients, yearly bloodwork can identify problems early to ensure a long and healthy life.

SALMON BROOK VETERINARY HOSPITAL

2018 Equine Wellness Plan Terms and Conditions

Enrollment runs through March 1st, 2018.

The cost of this plan must be paid in full before any services are rendered. We can accept cash, credit card, check, CareCredit or Wells Fargo.

- Pay in full at the time of registration
- Pay in 3 installments. Full payment must be received PRIOR to scheduling the spring visit.

The plan does NOT cover the cost of the farm-call. This will be split amongst horses seen that day and/or billed as normal.

The plan does NOT cover any services recommended due to illness, accidental injury, lameness or any services not detailed in the previous chart.

The plan does NOT include any services provided by outside veterinarians.

This plan is not transferable and applies only to the patient identified at time of enrollment for as long as it's owned by the same owner.

If a patient dies or you move out of our area, we refund any services not performed based on their discounted value.
